Subject:
Addendum 3 capacity declaration S22

Date:
10-06-2022

Dear Mr. Thomassen

Please find enclosed an addendum to the capacity declaration of Eindhoven Airport (EIN) that has been published by ACNL on September 30, 2021 for IATA Northern Summer 2022 (S22). We trust that you will allocate the slots to the aircraft operators in accordance with the limitations and requirements as specified in the capacity declaration and this addendum. The enclosed addendum applies to Commercial Aviation operations.

In the first few months of S22, we experienced severe traffic recovery and thus severe impact to our operational capacity and operational capacity of our partners. For the upcoming months of June, July, August and September, foresee challenges which, from the viewpoint of operational integrity, force us to take additional measures. As a first step, we want to prevent the expected operational issues to become even larger and we therefore we reduced our total S22 capacity.

Therefore, we decided to introduce an additional, operational parameters to the capacity declaration of S22 which shall be effective for the period June 10th up and to including October 29th.

I hereby refer to the capacity declaration in which EIN has reserved the right to introduce additional measures to regulate operational capacity in-season in the event of exceptional circumstances such as the situation at hand. We would like to stress that this is an unprecedented situation, unfortunately forcing us to take these steps. The additional parameters will provide ACNL a ground not to re-allocate slots during this period, that were returned to the slot pool, to commercial passenger slots.

We trust in their continuing ability to cooperate but nevertheless reserve the right to introduce additional parameters if necessary. During the month of June, an evaluation of these steps will take place.

Kind regards,

Mirjam van den Bogaard
COO – Eindhoven Airport N.V.

Eindhoven Airport N.V.

Addendum 3 to capacity declaration Eindhoven Airport S22:
