**Capacity declaration summer  
season 2022: addendum 4**

Mr. Drs. H. L. Buis  
Executive Vice President & COO  
+31 (0)20 – 6018340

August 1, 2022  
HB.2022.008

Dear Mr. Thomassen,

Please find enclosed a fourth addendum to the capacity declaration of Amsterdam Airport Schiphol (AAS) which has been published by ACNL on September 30, 2021 for IATA Northern Summer 2022 (S22). This addendum includes a mandatory, temporary capacity parameter applicable to all commercial passenger operations, in line with the WASB sector best practice (*"Managing temporary reductions of airport capacity"*) of July 17<sup>th</sup>, 2020. This parameter limits the volume of departing seats per day and is necessary to ensure a safe operational environment and it is proportionate to serve that goal. We trust that you will allocate the capacity to the aircraft operators in accordance with the limitations and requirements as specified in the capacity declaration and related addenda.

This addendum furthermore includes a so-called 'Temporary Operational Limit', to the capacity declaration of S22 which shall be effective for the period August 29<sup>th</sup> up and to including October 29<sup>th</sup>. This additional parameter will provide ACNL a ground not to re-allocate slots during this period, that were returned to the slot pool, to commercial passenger slots.

As communicated in our previous addenda, the values for the preceding periods, up to and including August 28<sup>th</sup>, have been estimated previously. Now, with this addendum, we declare the values of the 'Temporary Operational Limit' and the mandatory 'Temporary Terminal Parameter' for the remainder of the S22 season. For the last period of the season we unfortunately foresee capacity constraints which, from the viewpoint of public safety and operational integrity, force us to take additional measures to those already taken, since the demand for airport capacity amply exceeds what AAS has available. I therefore request ACNL to implement these coordination parameters for commercial passenger operations at AAS.

For more detailed reasons and context on this matter, I kindly refer to our earlier communications in previous addenda. However, I would like to stress again that this is an unprecedented situation, unfortunately forcing us to take these steps. The 'Temporary Terminal Parameter' is mandatory, providing ground to ACNL and coordinators worldwide for granting justified non-utilization of slots (*"force majeure"*) to those operations that are cancelled and meet the prerequisites in this period.

We trust in the continuing cooperation with you and our airline partners, but nevertheless reserve the right to introduce additional parameters if necessary. The impact of these steps is evaluated continuously.

Yours sincerely,  
H. L. Buis

*Enclosure: 4<sup>th</sup> addendum capacity declaration Amsterdam Airport Schiphol; IATA summer 2022*

#### 4<sup>th</sup> Addendum capacity declaration Amsterdam Airport Schiphol; IATA summer 2022

The capacity declaration for summer 2022 shall take the following additional provisions into account:

- A 'Temporary Terminal Parameter' applies to flight operations with service type codes J / C / G / S / Q / B / R / O / L.
- This 'Temporary Terminal Parameter' equals a limitation of the volume of departing seats per day in the period of August 29, 2022, up to and including October 29, 2022, expressed on basis of calendar days.

August-September-October 2022							
MO	TU	WE	TH	FR	SA	SU	<i>week</i>

26 SEP	27 SEP	28 SEP	29 SEP	30 SEP	01 OCT	02 OCT	39
112,500	112,000	108,000	108,500	114,500	104,500	110,500	
03 OCT	04 OCT	05 OCT	06 OCT	07 OCT	08 OCT	09 OCT	40
111,500	112,500	109,500	109,500	115,500	104,500	110,500	
10 OCT	11 OCT	12 OCT	13 OCT	14 OCT	15 OCT	16 OCT	41
107,500	106,000	102,000	102,500	108,500	94,500	103,000	
17 OCT	18 OCT	19 OCT	20 OCT	21 OCT	22 OCT	23 OCT	42
111,000	113,000	110,000	110,500	116,000	100,000	107,500	
24 OCT	25 OCT	26 OCT	27 OCT	28 OCT	29 OCT		43
115,000	116,000	113,500	115,000	121,000	110,500		

Note 1: This parameter is designed as a temporary measure to deal with the current imbalance of the operational supply and demand that is a consequence of the recovery of the traffic figures after the Covid 19 pandemic. The parameter is mandatory. AAS will take all reasonable steps to provide sufficient capacity to facilitate airline demand after the period for which this parameter is designed.

Note 2: the 'Temporary Terminal Parameter' does not affect nor replace the declared Operational Limitations as stated in the capacity declaration of S22 and any of the subsequent addenda.

Additionally, the capacity declaration for summer 2022 shall take the following provisions into account:

- A 'Temporary Operational Limit' applies for flight operations with service type codes J / C / G / S / Q / B / R / O / L.
- The 'Temporary Operational Limit' equals a volume limitation of 65,000 slots and applies for the period of August 29th, 2022, up to and including October 29th, 2022.

Note: the 'Temporary Operational Limit' does not affect nor replace the declared Operational Limitations as stated in the capacity declaration of S22 for other operations or periods than mentioned in this addendum.
