Slot Enforcement Code

- ACNL and The Human Environment and Transport Inspectorate (ILT/CAA-NL) published an update (v1.1) of the Slot Enforcement Code for The Netherlands. It describes the different forms of slot misuse, what sanctions can be imposed when and by whom. The update concerns off-slot operations and GA operations: <https://slotcoordination.nl/monitoring-mission>.
- Slot monitoring reports and allocation statistics have been published on ACNL's website and are being updated on a monthly basis: <https://slotcoordination.nl/allocation-statistics-and-monitoring-report/>

Flowcharts Slot Requests for Normal and Abnormal Operations

- The Dutch Ministry of Infrastructure & Water Management published two Flowcharts Slot Requests, one for Normal and one for Abnormal Operations. These flowcharts visualize the applicable law and regulations. Slots should be requested according to the flowcharts: <https://slotcoordination.nl/slot-allocation/how-to-request-a-slot/>

Reduction movements Amsterdam Airport Schiphol (AMS)

- Following earlier presented measures to the European Commission and outcomes of court rulings, on 24 May 2024 the Minister of Infrastructure and Water Management informed the House of Representatives about proposals concerning adjusted measures relating to noise reduction including reduction of maximum number of commercial movements. Public internet consultation is available until 21 June 2024.
